## Infant School & Nursery

### Sport Premium Grant Expenditure 2013 – 14

<b>Number of pupils and Sports Premium Grant received from April 2013</b>	
Total number of pupils on roll	181
Total number of pupils eligible for Sports Grant	181
Total amount of Sports Premium Grant received for financial year 2013/2014	£5,248

#### **How the Sports Premium Grant will be used during 2013/2014**

We plan to use the Sports Premium Grant to purchase specialist input to enhance and update our teaching of PE. After consultation we have enlisted Soccer 2000 to support us in our aims (see below). This project is also Target 2 in our 2013/14 School Improvement Plan.

#### Aims

- To enhance the profile, delivery and standards in PE
- To review & enhance current schemes of work
- To facilitate Professional Development for all staff through coaching and mentoring by Soccer 2000
- To identify and develop children who show an aptitude for PE
- To identify and target intervention for children who show difficulties of coordination and control

#### Activities

- We have secured **three sessions of PE support per week** for the coming academic year to be provided by Soccer 2000
- Two sessions will be divided between Year 1 and Year 2 classes one morning a week. Two Soccer 2000 coaches will deliver PE lessons in line with the requirements of the National Curriculum **alongside class teachers**
- The aim of these sessions is to deliver high quality PE teaching and to provide high quality professional development for teachers.
- Coaches & teachers will also focus (together) on assessing the children's development and any intervention needs.
- The final session will be allocated to both Reception classes once a week.
- We will use the fund to provide once weekly yoga activities (led by a current member of staff qualified in teaching yoga), for a small number children identified through on-going assessment who require additional support with coordination/control/gross motor skills

- Discussions will take place with our Coordinator for PE to discuss and further develop our scheme of work
- We may use the fund to purchase any additional PE scheme resources as and when required

### **Measuring the impact of Sports Premium Grant spending - summary**

At the end of the academic year we will use the success criteria listed below to evaluate the impact of the Sports Premium grant on our pupils.

#### **Success Criteria**

- **High quality PE teaching by qualified coaches for 1 year or beyond** (*evidenced through formal & informal lesson observations & developments in planning and resourcing*)
- **Relevant, up-to-date schemes of work** support longer term effective teaching of NC & FS Curriculum (*evidenced through planning trawls and lesson observations*)
- **More able & less able children in PE identified and targeted for intervention** (*evidenced through planning trawls, lesson observations and intervention records*)
- **All children making gains in learning** through appropriate PE teaching (*evidenced through planning trawls, lesson observations and intervention records*)
- **Yoga Intervention** – tracking and monitored progress of pupils targeted for yoga because of issues with fine/gross motor skills/concentration and relaxation
- **Sustainable developments in teaching and learning beyond end of project/funding** (*plans & schemes uploaded onto LP, future lesson observations*)

#### **Evaluation/Impact at end of Academic year 2013/2014**

- Soccer 2000 coaches have taught designated PE lessons to REC, Y1 and Y2 classes during this academic year. Christ Church staff have worked alongside the coaches to develop and enhance their teaching skills in PE. High quality PE lessons have been observed by SLT and the PE Coordinator through informal observations.
- Soccer 2000 Director has worked alongside the PE Coordinator and Deputy Head Teacher to create relevant and up to date schemes of work for all year groups. Soccer 2000 have also provided resource cards for each topic that will help teachers with the delivery of PE.
- Soccer 2000 have provided us with a simple but effective assessment system that clearly shows more able and less able pupils which then allows for clear and structured differentiation. This has enabled earlier recognition of pupils who are very able or pupils who may need extra support.
- 19 pupils were targeted over the Spring and Summer Term for Yoga Intervention. All enjoyed the sessions and benefitted through the range of teaching techniques. 53% of the children achieved above average scores for concentration, relaxation and posture/movement at the end of their project, whilst the other 48% met the expected level for their age.
- After the initial year of support we believe that all staff feel more confident and supported in the delivery of PE. We also believe that the support will benefit the pupils in their transition to their new year groups and allow them to build on their prior learning in PE.
